Kiss The Grass

The Paper Kites

Sweet daisy chain Around your neck Through your hair In the sun Sweet glowing skin Kiss the grass Golden air fill your lungs Slow down, let it all slow Slow down, let it all slow Sweet orange sky Watch it fade Colours mango and blue Sweet glowing skin Kiss the grass And the light passes through Slow down, let it all slow Slow down, let it all slow Slow down, let it all slow Slow down, let it all And our bones are growing stronger Every day we breathe it in We make time to see And find our healing Sweet daisy chain Around your neck Through your hair In the sun Slow down let it all slow, Slow down let it all
