

# When Our Legs Grew Tall

## The Paper Kites

In the spring we wake  
Where all dreams we make  
There's a place we once knew  
Something old, something true  
To just spend all day  
Going back that way  
Now the days go so fast  
Give me time, give me past

And I know  
It's been so long  
Since we were children of the sun  
So we go..

Lay our heads down on the green  
Like when we were young  
See the world up from the trees  
Like when we were young  
Memories, memories

How I'd love to find  
That old place of mine  
Feel the afternoon glow  
Something warm, something slow  
But our minds got small  
When our legs grew tall  
And our eyes don't see right  
Give me soul, give me sight

And I know  
It's been so long  
Since we were children of the sun  
So we go..

Lay our heads down on the green  
Like when we were young  
See the world up from the trees  
Like when we were young  
Memories, memories

On the green  
On the green
