

Into The Sun

The Parlor Mob

All my life I've been chasing something*
I feel fate breathing down my neck
If the road I'm on somehow lead me nowhere
No retreats men no regrets

'Cause I'm not going to break
and there ain't no mistakes
and there ain't no turning back

[Chorus]
Out of the darkness
And into the light of love
Though for now it seems this struggle has only begun

I'm still believing
Our day is going to come
When we step out of the shadows and into the sun
Into the sun

Say a prayer for a generation
Hope is frail in this modern times
In a cold world of complication
I refuse to be left behind

And I'm not going to break
Nobody can take
This feeling from my soul

[Chorus]
Out of the darkness
And into the light of love
Though for now it seems this struggle has only begun

I'm still believing
Our day is going to come
When we step out of the shadows and into the sun
Into the suuuuuuuuuuuuuun
Into the suuuuuuuuuuuuuun

[Chorus]
Out of the darkness
And into the light of love
Though for now it seems this struggle has only begun

I'm still believing
Our day is going to come
When we step out of the shadows and into the sun
Into the sun
