

# Come Back As Heroes

The Parlotones

When you come back, please come back home as heroes  
And while you're gone, we'll sing this song for you  
And we will share the pain and share the glory  
So come back home as heroes  
And make us heroes, too.

When you come back, come back as heroes.

Can you feel the energy?  
United voices fill the streets  
And together we are million strong  
So when the moment comes to shine  
I hope some dreams are by your side  
Let them lift you up and drive you on.

When you come back, please come back home as heroes  
And while you're gone, we'll sing this song for you  
And we will share the pain and share the glory  
So come back home as heroes  
And make us heroes, too.

When you come back, come back as heroes.  
When you come back, come back as heroes.

As a nation hold its breath  
Just make us proud and be the best  
We'll take the lows  
And we'll chill the highs  
'Cause there won't be a sweeter sound  
In every village, every town  
We'll be singing, when you lift the final cry.  
So go on, and on and on ...

When you come back, please come back home as heroes  
And while you're gone, we'll sing this song for you  
And we will share the pain and share the glory  
So come back home as heroes  
And make us heroes, too.

When you come back, come back as heroes.  
When you come back, come back as heroes.  
When you come back, please come back home as heroes

And while you're gone, we'll sing this song for you  
And we will share the pain and share the glory  
So come back home as heroes  
And make us heroes, too.

When you come back, please come back home as heroes

And while you're gone, we'll sing this song for you  
And we will share the pain and share the glory  
So come back home as heroes  
And make us heroes, too.
