

# Disappear Without A Trace

The Parlotones

Guess I'd like the simple things in life  
little house and someone to call my wife  
I see such beauty  
as icecream melts on your hot hot lips  
-- chorus --  
ah hold on honey  
we got forever to taste  
and speed up sugar  
don't forget our friend fate  
it could disappear without a trace  
-- x2  
We sit outside like children tonight

the truth be told i've been a child all my life  
and I see such lovely  
as chocolate melts on your hot hot skin  
-- chorus x2 --  
umbrellas and trampolines  
theres a hole in your heart  
dear liza stop trying to heal the world  
armaggedon over and gasoline  
theres a hole in the sky  
dear liza lets just live our own lives  
the simple one i desire... desire  
-- chorus x2 --
