

Play On

The Parlotones

Goodbye sadness
Leave me alone
There's a happy face waiting at home
Even in absence the music plays on
Let the music play on
Let the music play on

Play on□ play on
The magic music must never ever disappear
Play on□ play on
We may be building castles in the sky
We'll learn to fly, fly
Play on□ play on

Hello Muffy, have you come to pass your law?
Whenever things get better
You come knocking at my door
Do as you want, just let the music play on
Let the music play on
Let the music play on

Play on□ play on
The magic music must never ever disappear
Play on□ play on
We may be building castles in the sky
We'll learn to fly, fly
Play on□ play on

Tick-tock, clock clock
Running away from me
I don't understand
Cus' it's only got hands
Tick-tock, clock clock
Running away from me
I don't understand
Cus' it's only got hands

Play on□ play on
The magic music must never ever disappear
Play on□ play on
We may be building castles in the sky
We'll learn to fly, fly

Play on to the soundtrack of our lives...
