

# We Call This Dancing

The Parlotones

Prospects drive us we don't need all the facts  
Gotta keep moving  
Not quite sure of the route, design our own map  
M M M Moving  
We call this dancing

Our love is flowing  
Our hearts exploding

[CHORUS]

Bursting out of our skins, our hearts exploding  
Escape from this life, we call this dancing  
If all you need is love, our love is over flowing  
Escape from this life, we call this dancing, dancing, dancing

Golden woven sunrays splash on our face  
Our love is flowing  
Honey coloured moonbeams tickle and trace  
Our hearts exploding  
We call this dancing

Our love is flowing  
Our hearts exploding

[CHORUS]

Bursting out of our skins, our hearts exploding  
Escape from this life, we call this dancing

Bursting out of our skins, our hearts exploding  
Escape from this life, we call this dancing  
If all you need is love, our love is over flowing  
Escape from this life, we call this

Bursting out of our skins, our hearts exploding  
Escape from this life, we call this dancing  
If all you need is love, our love is over flowing  
Escape from this life, we call this, we call this

Escape from this life, we call this dancing
