

5 AM

The Partisans

5 am in town
There's no else around
That camera is watching you
But that's another point of view
Out their waiting
Driving through the night
Destination's right
Let them speak and let them swear
And lets all watch the fascists sneer
We're out here waiting

We don't want your cause
We don't want your Laws
We don't want your wars
We don't want you
We don't want you

The dogs keep bearing down
We get silenced by their sound
And all the news on show tonight
Gets edited for your delight
They're out there waiting
