

## No One Asked Us

### The Partisans

We had a demo tape but no one could decide  
Which criminal to trust and why  
So we got a name and that was said and done  
Then we had a letter saying we had won

We didn't take the fall  
We were going backwards  
The price we paid was small  
Cuz no one cared to asked us

We never wanted to get into the news  
But still we all got screwed  
Then we discovered that we were not the first  
To get fucked up by that same old verse
