

## No Satisfaction

### The Partisans

No Satisfaction guaranteed  
Saturday means something  
Crave the thing you know you need  
Right now you're worth nothing  
Going places you don't know  
Days keep going nowhere  
One last coin wont save your name  
Or get that ticket out of here  
Work all week get some say  
Feeling 5 years older  
Make that vote get off your knees  
Or start the whole thing over

I tried living on the other side  
The grass ain't greener but it looked alright  
Was given nothing for the pain I felt  
So I got right out

The boss got fed the contract said  
Blackmail by emotion  
Fuck that game I'll clear this head  
Break my back for no one

The suits inside the boardroom like  
To say you'll get no mention  
And that's because redundancy  
Will get your best attention

I know you're fucked over  
And living on automatic  
I know you're messed over  
And living on someone's handout  
I know you're fucked over  
I want it all for nothing
