

Kelvin Klein and Reebok
Your making all the money that I ain't got
I wanna keep buying but I know I am not
Clever in my pocket that way
Shaking in some sweat shop
The kids are living lives that they ain't got
I wanna keep trying so I know I am not
Selling all the names for free

I wanna have it all
Going to make the world just like me

Meanwhile in the night street
There's a 24 something shopping in his gold feet
Got a credit card for brains
that's so neat
And he's selling all the names for free

I wanna have it all
Going to make the world just like me

Just do it if you want some
Keep running around and get some
Just do it if you want some
Gotta keep buying

I wanna have it all
Going to make the world just like me
