

# Alone Too Long

The Partridge Family

Funny how you can go on livin'  
And lose the simple knack of givin'  
It slips away before you know it's gone  
Ya build up walls and before ya know it  
Someone moves you and you want to show it  
But you just can't find a way of lettin' on

I've been alone to long  
Baby now don't you see  
I've been alone too long  
That's all that's wrong with me  
I want to build you a dream  
Paint you a sunrise  
Write you a beautiful song  
But I don't know how  
I've been alone to long

Funny how you can cut off feelin'  
And tell yourself that your wounds are healing  
When all you've done is turn the pain inside  
And when your sure that no one can get to ya  
Someone smiles and it goes right through ya  
And wakes up somethin' that you thought had died

I've been alone to long  
I've been alone to long  
I've been alone to long  
I've been alone to long
