

# Every Song Is You

The Partridge Family

Magazines and afternoon dreams get me through the day  
And till the night can smile for the people as I sing, and I play  
I left home, it seems like, a century ago  
I never thought I could miss anybody so, but now I know

[Chorus]

Everywhere I go, everything I do  
Every song is you  
Searched my mind just to find  
Something I always knew  
Everywhere I go, everything I do  
Every song is you  
Searched my mind just to find  
Something I always knew  
Every song is you

Singing man with a six-piece song band, answer to my dreams  
And everytime I sing without you, how lonely it seems  
I love you now like I never loved you before  
Each day that goes by, I find that I want you so; I need you more

[Chorus]

Everywhere I go, everything I do  
Every song is you  
Searched my mind just to find  
Something I always knew  
Everywhere I go, everything I do  
Every song is you  
Searched my mind just to find  
Something I always knew  
Everywhere I go...
