

Last Night

The Partridge Family

Last night I couldn't fall asleep
Because I wanted to keep on thinkin' of you
Last night I was flyin' high
I was happy, I was happy

Well, last night you told me somethin'
That I won't forget if I should live forever
Last night you said you loved me
And it gave me fever and I thought it over

Baby, my baby

When you are there
I'm aware that I must be dreamin'
When you are near
I can hear my body screamin'

Never let me go, honey
Never let me go, baby
Never let me go
Never ever ever let me go

Last night I couldn't fall asleep
Because I wanted to keep on thinkin' of you
Last night I was flyin' high
I was happy, I was happy

Last night you told me somethin'
That I won't forget if I should live forever
Last night you said you loved me
And it gave me fever and I thought it over

Baby, my baby

When you are there
I'm aware that I must be dreamin'
When you are near
I can hear my body screamin'

Never let me go, honey
Never let me go, baby
Never let me go
Never ever ever let me go

When you are there
I'm aware that I must be dreamin'
When you are near
I can hear my body screamin'

When you are there
I'm aware that I must be dreamin'
When you are near
