## Carefree

## The Perishers

Carefree, why can we not be
Forever you and me, forever me and you
Carefree, I know it's not my fault
I long to be forgiven for whatever it is I've done

Tonight the ocean's at my feet
The stars glitter just like diamonds
I'm here to drown my fears
So I can wake up empty and be

Carefree, I know we're not the same I'm trapped too long to be free Carefree, sing another song And turn the night light on And watch me fall asleep

Tonight the ocean's at my feet
The stars glitter just like diamonds
I'm here to drown my fears
So I can wake up empty and be

Carefree, why can we not be Forever you and me, forever me and you

Carefree, let me be carefree Always be carefree Let me be carefree Always be carefree
