

## Get Well Soon

### The Perishers

Promise to get well soon  
To feel much better soon  
When I come back in June  
You'll still be around  
Get well soon

Late November somethings wrong  
You've kept it secret way too long  
There's not much anyone can do  
From here on in it's up to you  
I wish it wouldn't  
But you know  
The show goes on, I have to go

Promise to get well soon  
To feel much better soon  
When I come back next year  
You'll still be here  
Get well soon

Can you feel it, is it true?  
Is something growing inside of you  
Wish there was something I could do  
From here on in, it's only you  
I dearly wish it wasn't so  
But life goes on, I have to go...

Promise to get well soon  
To feel much better soon  
When I'll come back in June  
You'll still be around  
Get well soon

You'll get well soon  
Just get well soon
