```
If you're listening...
And we go round and round
Life is just a moment in time...
(Slim Kid3)
```

I recall being three when Sunny passed away one of the greatest in my eyes till this very day too young to understand but understood the ways of good and evil life and death was in the breath of times fate and God only knows that kept Peggy straight cuz in the very next year my Aunt Dorothy was the late

more beautiful than the word it was like killing a mocking bird She was so young like the new year was all you heard almost saw it so clear the good times that we had when my momma showed me pictures life wasn't so bad I got baby sat by Pat when Bedie was a small guy and in our cousins eyes we were both small fries, Jazzywazzys growing up to be a big girl now

Father figure understands a man might like her profile I let sink in a while and told let 'em like ya style both you and Ebony I be damned if this short life ain't heavenly peace and harmony family season and it goes...

And we go round and round Life is just a moment in time...
