

Blood

The Pierces

If it makes you love me more
To put one foot out the door
Step outside

And if you feel wild and free
When you're out away from me
Run away

Coz I can hear it in your voice
In a sweet fever rush
When you look at me and say
That you love me there and then

Blood on my hands and my body
Blood that washes clean like water
Love that cuts so deep
It heals me

I wanna love you more
If you would open up the door
And step outside

Blood on my hands and my body
Blood that washes clean like water
Love that cuts so deep
It heals me

If it makes you love me more
