

# I Can Feel

The Pierces

He could be anyone  
Just for a night  
Small talk and white lights  
Big dreams, hey ya  
We could be anywhere  
Just for the night  
Tall mountains high hopes  
In your dreams, hey ya

Anywhere, I'll go if you want to  
Anywhere at all  
Anywhere, let's go if you want to  
Anywhere, say now

You can take me home if you want to  
You can let me down baby don't look back  
I can feel, I can feel it, ah-ah-ah  
We could be alone if you want to  
Lay me down, give me what I like  
I can feel, I can feel it, ah-ah-ah

And when we first kiss  
Fourth of July  
Blue eyes and red lips  
Red lights, hey ya  
I'll be a face  
Without a name  
If I can be careless  
You can do the same

Anywhere, I'll go if you want to  
Anywhere at all  
Anywhere, let's go if you want to  
Anywhere, say now

You can take me home if you want to  
You can let me down baby don't look back  
I can feel, I can feel it, ah-ah-ah  
We could be alone if you want to  
Lay me down, give me what I like  
I can feel, I can feel it, ah-ah-ah

And when the light sneaks in the room  
You'll know that I'll be leaving soon  
Soft to the touch  
But hotter than metal, baby  
You won't save me

You can take me home if you want to  
You can lay me down baby, don't look back  
I can feel, I can feel it, ah-ah-ah  
We could be alone if you want to  
Lay me down, give me what I like  
I can feel, I can feel it, ah-ah-ah

You can take me home if you want to  
You can layme down baby don't look back

I can feel, I can feel it, ah-ah-ah  
We could be alone if you want to  
Lay me down, give me what I like  
I can feel, I can feel it, ah-ah-ah
