

# Monsters

The Pierces

You and me against the world  
Like a little boy and girl  
There were monsters beneath our bed  
And we were scared until we taught them all to sing and then we  
had a laugh instead

You and me on stormy seas  
It had brought us to our knees  
There were dangers, all around  
And we were frightened by the wind and when it blew until it bl  
ew us to dry ground

Baby here we are tonight  
The dark will turn into the sunlight  
Don't you know it always does  
It always was  
And it will be all right

You and me among the crowd  
I heard you shout my name out loud  
And there were strangers all around  
And I was lost until the moment when you came and took my hand  
and I was found

You and me with no regrets  
And I will try not to forget  
There is nothing we could do  
That will ever change the love we have  
Remember that my aim is true

Baby here we are tonight  
The dark will turn into the sunlight  
Don't you know it always does  
It always was  
And it will be all right
