

Out All Night

The Pietasters

I don't need to tell the truth
But I never lie
I don't need to bow to you
You're just passing by
I never wanted to be the one you bitch and moan and come home to
But as long as you look good, I'll talk back to you
Get inside my troubled mind
With all of your threats
Sometimes I think I was blind
Not before we met
I never wanted to be the one that you depend on for your life
When you cry it smells like soup,
Sometimes shown at night, never be the way

Stay out all night, I've got a right each time I
Stay out all night, know I just might you make me
Stay out all night, it's just the side of you tonight that makes me
Stay out all night, I'm gonna stay out all night

You're an evil little girl
I'm a twisted man
Tear into your perfect world
Make you understand
I never wanted to be the one you bitch and moan and come home to
But as long as you look good
I'll talk back to you and you have things to do

I will never treat you bad
You deserve the best from me
If you want to keep your place
You'd better get down on your knees
