

Animal

The Pigeon Detectives

I'll make you see
You're animal
Just like me
You
Knock me off of my feet
These urges they keep
Taking over me
It's not just chance
we both know the moves to this dance
So put your hands in my hands
It's never been as clear as this to me

Love won't make a sound
Although your eyes may wonder
I'll be coming back to you
Follow you around
Although your eyes may wonder over time

I'll make you see
You're animal
Just like me
You
Knock me off of my feet
These urges they keep
Taking over me
It's more or less
The way your wearing that dress
My heart beats out of my chest
It's never been as clear as this to me

Love won't make a sound
Although your eyes may wonder
I'll be coming back to you
Follow you around
Although your eyes may wonder over time

Don't tell me that i can't repeat these words
You find my charms resistible
Don't tell me that i can't repeat these words
You find my charms resistible

Love won't make a sound
Although your eyes may wonder
I'll be coming back to you
Follow you around
Although your eyes may wonder over time

Love won't make a sound
Although your eyes may wonder
I'll be coming back to you
Follow you around
Although your eyes may wonder
Though your eyes may wonder
