

Light Me Up

The Pigeon Detectives

I'll take you out on the town and we can have a good time
I'll take you all of the places that you never could find
I won't fall asleep, we'll be dancing all night
I won't fall asleep till we see the sunrise

Light me up a cigarette, I'm in a mess and I gotta go
I gave you my very best, but then I guess that you'll never know
w

You can always get lonely when you're out on your own
You know you're doing it right when you don't wanna go home
You can't fall asleep, we'll be dancing all night
You can't fall asleep till we see the sunrise

Light me up a cigarette, I'm in a mess and I gotta go
I gave you my very best, but then I guess that you'll never know
w

I will follow you anywhere you want me to
I will follow you anywhere you want me to
I will follow you anywhere you want me to
I will follow you, I will follow you

Light me up a cigarette, I'm in a mess and I gotta go
I gave you my very best, but then I guess that you'll never know
