

You Don't Need It

The Pigeon Detectives

I will give you my heart
Keep us falling apart
But you don't need it
If you just call my name
It will drive me insane
But you don't need it

And things are moving much too fast
You have me come and go and I just don't know where I stand
How could you think about me when you're with another man
Oh you don't need it

I stayed up half the night
Still I just couldn't write
And I don't need it
All I wanted was sleep
But I knew that that could keep
And I don't need it

And things are moving much too slow
You have me come and go and I just don't know where I stand
How could you think about me when you're with another man
Oh you don't need it

And things are moving much too slow
Still you will have me come and go and I just don't know where
I stand
How could you think about me when you're with another man
Oh you don't need it

I will close down my heart
If we're falling apart
Cos' you don't need it
I won't give you a call
Won't do anything at all
Cos' you don't need it

And things are moving nowhere now
Still you will have me come and go and I just don't know where
I stand
How could you think about me when you're with another man
You have me come and go and I just don't know where I stand
How could you think about me when you're with another man
Oh you don't need it
