

I can not fly an airplane
I sighed out my misfortune
Because I'm mad about sky
But I'm just like a creeper
Not only I but she loves
looking muddy sky
We saw lots of migrants
I'm just awake from sleep
Anyway, I will release the chains
And I became daydreamer

I can not please everybody
She is the only girl that
I know in this broad star
She must be beauty oddball
She told me that I stay here
became I feel safe with you
She must be sunny oddball
I'm just awake from sleep
Anyway, I will release the chains
tear the chains
And I became daydreamer
I'm just awake from night dream.
