

Perpetual Night Shift

The Pineapple Thief

You work, I wait, I lay, awake,
You only make, one sound, I fake,
This time, you lie your face away from mine

It never happened, its ok,
It'll turn around one day,
We never saw him, its alright,
And thank the lord he cannot fight.

The time, has come, the end, has won,
No chance to walk, no point to talk,
This time, I turn away from waiting in line.

It never happened, its ok,
It'll turn around one day,
We never saw him, its alright,
And thank the lord he cannot fight.

Never regret the pain, never once,
Never forget the pain, never once,
Oh what a special day, only once,
Never forget that day, before he leaves

It never happened, its ok,
It'll turn around one day,
We never saw him, its alright,
And thank the lord he cannot fight.
