

Snowdrops

The Pineapple Thief

The day breaks your battered heart,
The sun rips your world apart,
And we will see it fall,
Yeah we will see it fall

Live each day if it is your last,
The life lost in a photograph,
And we will join them all,
Yeah we join them all

We are just falling snow,
So settle down, settle down
And I will slow your fall,
That is all, that is all

We are just falling snow,
Just settle down, just settle down,
And I will slow your fall,
That is all, that is all

We are both falling snow,
So settle down, just settle down,
And in amongst them all,
The little man, stands tall
