

## The Sorry State

## The Pineapple Thief

One false move into this sorry state  
One poor soul in this lonely space  
One heart to shoulder all the blame  
A single cloud for you pouring rain

It turns cold, when the world unfolds  
When one false move can turn your world  
Inside out

Settle down into your sorry state  
The world won't move in your darkened place  
I can't move here? Shoulder all the blame  
A single cloud is rearing up again

It turns cold, when the world unfolds  
When one false move can turn your world  
Inside out

It turns cold, when your world unfolds  
And one false move can turn your world  
Inside out

Inside out
