Where We Stood

The Pineapple Thief

The air was light The waves were falling And I looked up And you picked my hand up

We made it on up there And stood in the moment And I could feel you breathing Such a beautiful feeling

But did we make it to the top? And did I feel your hand drop? Because I don't remember where we stood up there I don't remember if we stood up there

I don't remember where we stood up there I don't remember if we stood up there I don't remember if we stood up there I don't remember if we stood
