

Stop The Music

The Pipettes

I've been such a fool
Still loving you
I still can't believe
You could deceive me
All I ever wanted was your love
Thought you would give it to me
For eternity
Now when they play our song
I have to run
Would somebody please
Stop the music
Please tell these boys
They don't know how to use it

All I want to say
Is I hope you're okay
All I want to know
Is baby now just where did our love go

Because you are the one for me
You're a broken heart and an empty dream
So you're the one for me
I can see you're scared
Because I can see your heart beat
I can see your heart beat

Can time ever heal
Just how I feel
Oh where all my days
We spent in these ways
Dreaming and thinking of you
Just what can I do
I'm broken in two
Now when they play our song
I just have to run
Would somebody please
Stop the music
Please tell these boys
They don't know how to use it
All I want to say
Is I hope you're okay
All I want to know
Is baby now just where did our love go

Because you are the one for me
You're a broken heart and an empty dream
So you're the one for me
I can see you're scared
Because I can see your heart beat
I can see your heart beat

Don't be a fool
Don't make me cry
Don't lie to me
Just tell me why
You'll do what you do
We'll see it through

The next time
Oh the next time

You'll always be the one for me
You're a broken heart and an empty dream
So you're the one for me
I can see you're scared
Because I can see you'll always be the one for me
You're a broken heart and an empty dream
So you're the one for me
I can see you're scared
Because I can see your heart beat
I can see your heart beat
I can see your heart beat
I can see your heart beat
