

Holiday

The Planet Smashers

A girl I met from Quebec city
Thought my accent was cute, said I was looking pretty
Said she likes Grim Skunk, so we hit it off
Seemed like love till the buzz wore off

Holiday, away from you
Holiday, away from you

Oh, I know it's getting really scary
The situation with this girl is getting kinda harry
She's bitchin', she's hollerin', she's screamin' in my ear
While I'm sittin' around with my hands down my pants

A girl I met from Quebec city
Thought my accent was cute, said I was looking pretty
Said she likes Grim Skunk, so we hit it off
Mais une nuit ca suffit, one night was enough

Holiday, away from you
Holiday, away from you

Now I'm gone, can't get her off my mind
I find myself thinking about her all the time
The separation between us doesn't feel quite right
Oh, je me souviens, gotta get on with my life

Holiday, away from you
Holiday, away from you

Holiday, away from you
Holiday, away from you
