

It's Over

The Planet Smashers

Don't wanna see you again don't want to hear of you

When it is over it is over

Won't speak of you again
Wish I never knew you
Thinking of your face makes me ill

Safe to say that I messed up
Safe to say that I screwed up
The time has come for me to face up
There's no way out but at least it's over

Don't wanna see you again don't want to hear of you

When it is over it is over

Won't speak of you again
Wish I never knew you
Thinking of your face makes me ill
It's over

Never should have trusted you
Never should have thought good of you
Many times I try to get through to you
You let me down but I let you

Don't wanna see you again don't want to hear of you

When it is over it is over

Won't speak of you again
Wish I never knew you
Thinking of your face makes me ill

There's no way out, at least it's over
