

In the Middle of Nowhere

The Platters

Where does our love lie?
In the middle of nowhere
Will it soon pass me by?
In the middle of nowhere

Baby, won't you tell me
What am I to do?
I'm in the middle of nowhere
Getting nowhere with you

Mmm, where did my heart land?
In the middle of nowhere
Where are the dreams I planned?
In the middle of nowhere

Listen to me baby
Listen to my plea
I'm in the middle of nowhere
And it's worrying me

Over and over again
You tell me you need my love
If what you say is true
Why can't we be together?

Over and over you tell me
I'm all that you're thinking of
Baby you know that I love you
But I can't wait forever

Where does our love lie?
In the middle of nowhere
How can you let it die?
In the middle of nowhere

Are you gonna leave me?
Leave my heart astray
I'm in the middle of nowhere
Come and show me the way

Over and over again
You tell me you need my love
Baby you know that I love you
But I can't wait forever

Where does our love lie?
In the middle of nowhere
How can you let it die?
In the middle of nowhere

Are you gonna leave me
And leave my heart astray
I'm in the middle of nowhere
Come and show me the way

Hey, where does our love lie?
Come on now

Where does our love lie?
Right slap in the middle of nowhere
Right slap in the middle of nowhere
Right slap in the middle of nowhere
