## Wish It Were Me

**The Platters** 

Saw you dancing last night with someone Wish it were me, wish it were me Dancing with you, wish it were true

Saw you holding your arms around him Wish it were me, wish it were me Clinging to you, wish it were true

Don't say it's hopeless Won't you learn to tell How I'd like to touch you With my prayer

Yes, I pray that my prayers Will touch you, touch you for true So you'd love me too

And the whole world would see Wish it were me And the whole world would see I wish it were me
