

# Insanity

The Pointer Sisters

Won't somebody come and rescue me  
and break these chains and set me free  
Slave of love is all I am to you  
and I'll do anything you want me to

You take my heart and control my mind  
and I keep running back to you time after time

So deeply emotional, all of your love drives me crazy  
so I plead...

Insanity  
Calamity  
Every time you look at me  
It's insanity  
Inhumanity  
And baby, I'm amazed by the power you have over me

It's human wanting something you can't have  
You want just a taste but you know it's bad  
So why you wanna come here messing up my mind  
and take advantage of me, boy, time after time?

My friends don't know how you can drag me around  
and they tell me that it's just...

She's going crazy  
She's going crazy

And baby if I know only knew  
I'd never give my heart to you  
You took my love, took over me  
I plead insanity

[Chorus]
