

# Man With The Right Rhythm

The Pointer Sisters

You're saying that you want me  
the rest of your life  
Never gonna leave me  
never say goodbye  
I can feel you moving  
closer to my heart  
I can feel you touching  
every single part  
And I like what you got  
Yeah, I like what you got

One in a million  
A special kind of man  
I'm ready and willing  
I'm putty in your hands  
I really need your loving  
that only you can give  
You keep me smiling  
You get me where I live  
I like what you got  
Yeah...  
I like what you got

I'm mad about you  
You make me feel so special  
More than a friend, you're a true romantic  
You're the man with the right rhythm  
I'm crazy about you  
You make me feel so special  
Oh, you give me a heart attack  
You're the man with the right rhythm

I like what you got

The way you touch me  
You're giving me a shock  
The soul and rhythm  
I never wanna stop  
You charge me up, boy  
Like a light you turn me on  
No chance of failure  
Your powers must be strong

I like what you got

Every time I see that man  
I get all nervous  
Oh, the way he touches me  
He touched me here, and he touched me there  
Then he started to move slowly

I'm talking about you  
You know you make me tremble  
Oh, hit me like an earthquake, boy  
You're the man with the right rhythm

I dream about you

and then I wake up happy  
No way I'm going to be without  
that man with the right rhythm

[Chorus]
