

## Special Things

The Pointer Sisters

Special things from far away  
Far beyond the dream  
It was not so long ago  
Out of reach they seemed

They're closer, I can see them passing through  
They cannot stay  
Take from it what is needed  
What they cost is what you pay

Everything your life is for  
Are the things you will endure  
Everything your life is for  
Are the very things you are

Special things from far away  
I've thought them, time to see them now  
Life is motion not display  
Even special things leave somehow

Everything your life is for  
Are the things you will endure  
Everything your life is for  
Are the very things you are

It's important at the time  
You created in your mind  
But your heart will come to see  
What you want may not be what you need

Everything your life is for  
Are the things you will endure  
Everything your life is for  
Are the very things you are

Everything your life is for  
Are the things you will endure  
Everything your life is for  
Are the very things you are
