When you reach number ten
And think the struggle ends
But it ain't the end
It's only a trend

You have to unbend
'Cause it's only a trend
Don't lose all your friends
Don't make your heroes end

When you reach number eight It ain't no pearly gate 'Cause it won't satiate Your growing appetite You can ply your trade And push your crusade Emancipate or indoctrinate, but the Traps are all laid for any honest crusade Your old values will fade As you struggle to make the grade As you struggle to make the grade You needn't bother! When you hit number four You're almost through the door But there's a whole lot More you just can't ignore The telephone's sure, you know the score But don't let this uproar Dissipate your encore It's written in the news How you paid your dues But you've no excuse For the people you abuse

When you reach number one
You can beat your drum
You can sack your roadies in Birmingham
When your record is platinum
You can stick it to the [band]
To the wall like you've always planned
It's written in the news how you paid your dues
But you've no excuse for the people you abuse
When you reach number ten
The people you abuse
No excuse
For the people you abuse
You've got no excuse
For the people you abuse
