

Dream to Follow

The Poodles

I got to move on
Cause I'm hooked upon a dream
I fight in the darkness
That's surrounding me
I see no hidden meaning
There's no given plan
I trust myself and not astrology

There's a reason and rhyme
The world is changing
And I'm the captain of your time

I have a dream to follow
When reality is calling
I need a dream to follow
To make my destination clear

This is the time and place
Here's your glory days
So flap your wings
And don't you turn around

There's a reason and rhyme
The world is changing
And I'm the captain of your time

I have a dream to follow
When reality is calling
I need a dream to follow
To make my destination clear

The world just hangs in doubt now
I know there's trouble here
But I ain't taking all the blame
