

# I Want It All

The Poodles

Nothing is too complicated  
Nothing is too distant here  
Not a door for me, obstructive  
I'm unstoppable

Anyone upon this planet  
Can defeat the impossible  
No one is above the other  
We are equal

Tonight I'm not afraid of living  
And I don't ever want to waste my time

All! I just want it all! Or want nothing at all  
This is the chance I'm taking  
All! I just want it all! Or want nothing at all  
This is the life I'm given  
I just want it all

There's burnin' flame I follow  
Heart and soul a touch of grace  
Cause tomorrow waits for no one  
A treasure's waiting there

If there's no gold under the rainbow  
It's still a ride I never will forget

All! I just want it all! Or want nothing at all  
This is the chance I'm taking  
All! I just want it all! Or want nothing at all  
Make me a life worth living
