

## Only Just Begun

The Poodles

Let your broken heart be the beginning of a song  
Use the pain and then forget it  
Honour the loss with all your will and carry on  
Learn from the past but don't regret it

Look around!  
So many ways you can be free  
Stand your ground!  
Human connection is the key

Just believe and make a difference here and now  
'Cause the only thing you can rely upon  
Is what returns in life depends on what you're sending  
A change is yet to come - It's only just begun

Don't worry too much about the shadows of the past  
And prophecies without a meaning

Let your mind be your kingdom  
And be free  
Stand your ground!  
Human connection is the key

Just believe and make a difference here and now  
'Cause the only thing you can rely upon  
Is what returns in life depends on what you're sending  
A change is yet to come - It's only just begun
