

Reach the Sky

The Poodles

Came for the rock in for the roll
I feel the power deep in my soul
Came for the rock in for the roll
No one can stop the power of it all
We got to keep the fire burning
We got to fight to stay alive
Ain't gonna stop these wheels from turning
Cause we got fuel to burn
and highway to ride
We're gonna reach the sky tonight
Don't let this moment slip through your fingers
You know deep within you're free like the wind
If you give yourself a chance to fly
Came for the rock in for the roll
I feel the power deep in my soul
Cause it's a time we will remember
I'm gonna live while i'm alive
Don't think we need the great pretender
Ain't gonna waste my time
or hang my head and cry
And as we reach the sky tonight
Don't let this moment slip through your fingers
You know deep within you're free like the wind
If you give yourself a chance to reach the sky tonight
Don't let this moment slip through your fingers
You know deep within you're free like the wind
If you give yourself a chance to fly
It's a time we will remember
I'm gonna live while i'm alive
Don't want to be the great pretender
I'm gonna keep my head up high
reach the sky tonight
Don't let this moment slip through your fingers
You know deep within you're free like the wind
If you give yourself a chance to reach the sky tonight
Don't let this moment slip through your fingers
You know deep within you're free like the wind
If you give yourself a chance to fly
