

# Friendship Of The Future

The Posies

Everyone sworn to protect us in a dreaming state now  
All the nations sharing it, they are the dreaming states now

Maybe ours is a friendship of the future  
Maybe ours is a friendship of the future

All the things that you hold dearly  
Well they hardly help now  
All your impulses unruly cannot be upheld now

Maybe ours is a friendship of the future  
Is there a legal place for us to touch?  
Maybe ours is a friendship of the future  
A petal for the powerful to crush

In their halo I see a noose  
Will they ever learn to be loose  
We did nothing -- is that the best we're gonna do?

Zaires designed it but we implied it well before the fact now  
Tell me when the next flesh wound is scheduled for impact now,  
well

Maybe ours is a friendship of the future  
Maybe ours is a friendship of the future

All the carbon copy bodies in fields where they lay  
Exercise your right to grieve before they take it, take it away  
Maybe ours is a friendship of the future  
Is there a legal place to push too much  
Maybe ours is a friendship of the future  
Is there a legal place for us to touch

Can we exercise our excuse?  
Will they ever learn to be loose?  
We did nothing -- is that the best we're gonna do?  
We did nothing -- is that the best we're gonna do?
