I Finally Found A Jungle I Like

The Posies

Well I finally found a jungle I like I'll be swinging my machete tonight The jungle floor's like a rug, if you don't mind the bugs At least you know that all of them bite

I got my mind in a clump Trump tight from the jump Alright! I finally found a jungle I like

Don't you try to help me chop on through Or I'll be swinging my machete at you All the new friends I've made might burn up in the shade But they'll never tell me what to do I might get stuck in a canopy drinking every Saturday night But I finally found a jungle I like

Crazy days are getting bettet than the ones before My mind is playing time for the team different than the one tha t's keeping score

Yeah I finally found a jungle I like I'll be drowning in confetti tonight Nancy Spumante by the full moonlight Cuz I finally found a jungle All right! Hang 'em high til they fry in the friendly skies I'm psyched! I finally found a jungle I like
