

# Anywhere

## The Presets

Deeper, I know you want it deeper  
You know you want it deeper  
I think we're going deeper  
I know you want it

Faster, I know you want it faster  
I know you want it faster  
These days we're moving faster  
I think we're moving

Further, I know we're going further  
You know we're going further  
Yeah, now we're climbing further  
And I can see it

Warmer, yeah, now you're getting warmer  
Feel like you're getting closer  
Yeah, now you're getting so hot  
Feel like you're burning

Surprise, surprise, you're on your own  
It's in your eyes, the love's you've known  
And the one's you loved  
You lost completely

Darker, outside it's getting darker  
Yeah, now it's getting darker  
At last it's getting darker  
And I can see it

Louder, yeah, now it's getting louder  
The noise is getting louder  
The night is getting louder  
And I can hear it

Stronger and now you're going stronger  
Yeah, now you're getting stronger  
You're finally growing stronger  
And I can feel it

Surprise, surprise, you're on your own  
It's in your eyes, the love's you've known  
And the one's you loved  
You lost completely

So let yourself down tonight  
Anywhere, I'll take you out tonight  
Anywhere, put on that dress you like  
Anywhere

The one with birds on it, they're flying around  
Now when you're short of breath  
Go anywhere and when your heart's in pieces  
Anywhere, I'll take you out tonight
