

Open up your eyes, kid
When are you going to learn?
What were you thinking?
You really got some nerve
Shining in the gold light
Glorious victories
But now you realize it's true what ya mama said,
You can't win everything, everything, every time
You've never gone too far give up
You've never gone too far give in
You've never gone too far to let go, all that you believe in
You've never gone too far turn back, all that you've been fighting for
There's still a chance to prove what your mama said
You can't win everything, everything, every time

When you can wear pheromone,
Time to fall in love with him
Fail epic, fail epic

When the night is bright, clear
And you can reach the stars
There's no need to hide,
I've seen just what you're capable of
I know I've got the power hidden somewhere deep
The power to lose it all

When you can wear pheromone,
Time to fall in love with him
Fail epic
When you can wear pheromone,
Open up your heart
Fail epic, fail epic

You've never gone too far give up
You've never gone too far give in
You've never gone too far to let go, all that you believe in
You've never gone too far turn back, all that you've been fighting for
There's still a chance to prove what your mama said
You can't win everything, everything, every time
Win everything, everything, every time
Can't win everything, everything, every time
