

Get the Fuck Outta Here

The Presets

I think my luck has changed
Find ourselves again
With all the ones that you find over there
Over there

Along the way
You come to these
That when all that's lost and gone
I think there's something wrong

Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
lets get, lets get the fuck out!

We've found our wings at last,
And all have flown away
So set them all machines to overflow
Overflow

And all the things
That we used to see
Have flown away tonight
And now its time to leave

Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
lets get, lets get, the fuck out!

We're on our way
We're all the same
I guess it's time to go
I think there's something wrong

Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck outta here
Lets get, lets get, the fuck out!
