

This Boy's in Love

The Presets

I stole the keys to the skies
We'll leave this place for the final time
No crying words, no goodbyes
Yet tonight we're burning all the dark times

Drown all the fears that we had
These are the things that we'll never understand
This time, fight fire with fire
'Cause, baby, tonight the world belongs to you and I

This boy's in love, love
This boy's in love, under the city, under the city lights

Don't tell the world what we've known
We've come so far, but there's still a ways to go
It's dark; there's no need for light
When the fire in his eyes is so bright

This boy's in love, love
This boy's in love, under the city, under the city lights

Tonight, turn out the lights.
Don't wait, too late to die.
Look out, hold on, hold tight.
Tonight all night I'm getting ready so...

Love, love, love, love
This boy's in love...

This town, these streets, your friends, we'll never see this place again
They'll think about you now and then, they'll never see our faces again

Good-bye this town, these streets, your friends, we'll never see this place again
They'll think about you now and then, they'll never see our faces again
