

Together

The Presets

I want you
You want me
So let's go out,
You want me.
I want you
You want me
So let's go out,
You want me.

Who do we think we are
Running round all sweaty
Baby I will wait for you if we could be together
Such a lovely face
Such an ugly city
Baby I will wait for you if we could be together forever

I want you
You want me

Who do we think we are
Running round all sweaty
Baby I will wait for you if we could be together

Such a lovely face
Such an ugly city
Baby I will wait for you if we could be together forever

Who do we think we are
Running round all sweaty
Baby I will wait for you, if we could be together

Such a lovely face
Such an ugly city
Baby I will wait for you if we could be together forever

We could be together forever oh
We could be together forever
We could be together forever
We could be together forever
