

## Three More Days

The Proclaimers

Three more days and then I'll see  
The people who depend on me  
Three more days and I'm home  
Not long now till I step inside  
The place where we all reside  
Three more days and I'm home.

And life's rolled on and on  
The whole time I've been gone  
I walked around today feeling right  
I dreamed about each one of them last night  
Three more days and I'm home.

And life's rolled on and on  
The whole time I've been gone  
When I close my eyes I can see  
The faces of my family  
Three more days and I'm home.

Everything that I hold dear  
Lies five thousand miles from here  
Three more days and I'm home,  
Three more days and I'm home,  
home.
